

LUMINARY CHEMICAL

LUMICHEM GREENCLEAN

Technical Data

Bio-Based Degreaser and Cleaner
Non-Toxic and Effective Against 99.7% of Bacteria and Viruses

English

INTRODUCTION

LumiChem GreenClean is a bio-based, natural cleanser and degreaser. Made from over 78% bio-based materials, GreenClean is the safe, ecologically sound, non-toxic alternative to traditional surfactant-based cleaners, and is completely safe for contact with food-preparation surfaces.

LumiChem GreenClean is the safest and most effective cleaner for use with high-touch surfaces in common areas, and is completely safe for human contact.

78% bio-based materials comprise LumiChem GreenClean's composition, making it non-toxic, yet effective against biofilms, oils, and all other surface contaminants.

FEATURES

1. Natural

Made from over 78% bio-based materials, LumiChem GreenClean is the safe, natural alternative to regular surface degreasers.

2. Non-Toxic

LumiChem GreenClean is non-toxic, and can be used on all surfaces, including surfaces frequently touched by children. Perfect for daycares, gymnasiums, and schools.

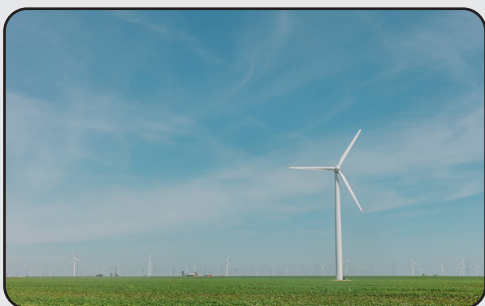

3. Excellent Degreaser

LumiChem GreenClean does an excellent job cleansing dirty surfaces, and is great at removing grease, oil, and stuck-on deposits that are typically hard-to-clean with other cleaners.

4. Anti-Microbial

LumiChem GreenClean has been tested and certified to be 99.7% effective against most bacteria and other sickness causing surface contaminants and microbes.

5. Ecologically Sound

Because it's made from bio-materials, LumiChem GreenClean is very eco-friendly. No leeching of dangerous chemicals into the waste and water stream.
